

BPA Energy Efficiency Weekly Announcements October 27, 2022

New

BPA webinar: SEM Process Evaluation findings

Please join BPA and the Evergreen Economics team on Nov.10, from 10-11 a.m. for a webinar where we will share the findings, conclusions and recommendations from the 2022 SEM Process Evaluation. BPA utilities (participants and non-participants), industrial end-users, Cascade Energy and other program contractors should attend to learn more...[More](#)

Please join the upcoming Momentum Savings & Market Research quarterly call

Join us Nov. 2, from 9 - 10 a.m. to learn about the value of BPA's investments in energy efficiency. Come get inspired and reinvigorated by the work we do in energy efficiency by listening to a new presentation on the value of energy efficiency. Bonnie Watson of the BPA market research team will share some of our customers' recent successes and accomplishments, as well as real-world success stories of the many benefits of energy efficiency. If you are interested in the case for EE and how it can be a solution to the challenges our industry faces today and in the future, then this presentation is for you. Additionally, come get a quick walkthrough of our new market research website so you know where to find all of the great resources our team has to offer. To join the webinar and add the meeting to your calendar, visit: [Calls - Bonneville Power Administration \(bpa.gov\)](https://www.bpa.gov)

Deadline to submit EFX session submissions is this Friday, Oct. 28

Planning is underway for Efficiency Exchange 2023, or EFX23! This year's event will be hybrid with the in-person conference held at the Oregon Convention Center in Portland May 2-3. This event is your opportunity to not only join the efficiency conversation, but to lead it as well. Please submit your idea for a session topic and/or keynote speaker by Friday, Oct. 28, 2022. [Submit here](#).

Events

BPA webinar: Introduction to Commercial Heat Pump Water Heating Systems

Please join us Wednesday, Nov. 2, from 10-11 a.m., when BPA will host the first webinar in our Commercial Heat Pump Water Heater, or CHPWH, series. This webinar will provide a high-level overview of CHPWHs in multifamily applications, and share information about the

upcoming multifamily incentive opportunity that will be offered to our region's utility customers...[More](#)

General

BEETS transition update and training sign-up Information

Thank you to those of you who were able to attend the Webinar on Tuesday, Oct. 18, where we talked through important dates and expectations around the transition to BEETS on Nov. 16, 2022. The presentation we walked through can be found on the [BEETS site](#) under Current Project Status and Transition section (recording will be posted soon). If you were not able to attend, we highly recommend you review the presentation, click [here](#) for all the information you may need on training and transition.

Important announcements around BEETS transition for full launch utilities in mid-November

Soft Launch utilities are now live in BEETS, and we are now shifting our focus to prepare for the transition of the remaining customers to BEETS in November (target date Nov. 16). BPA has prepared [customer training](#) and transition recommendations...[More](#)

Utility Sounding Board vacancies, January 2023

BPA is seeking nominees to serve on the Utility Sounding Board, or USB. We are looking for three candidates to fill these positions beginning in January, 2023. The USB is a consultative body that provides recommendations to BPA on policy, programs, infrastructure development and the execution of BPA's Energy Efficiency program. It also offers members the opportunity to learn from and share best practices with their utility peers...[More](#)
