New

BPA webinar: BPA invites you to submit an application for the Energy Efficiency Direct Funding Demonstration

Bonneville is offering a funding opportunity that is exploratory in nature and seeks to identify and capture any additional cost effective energy conservation that is occurring within the region. This funding opportunity application period opens Jan. 10 and closes Feb. 10.

BPA will hold a [one-hour Q&A session](#) regarding the application January 19, beginning at 10 a.m. PST.

For more information about the demonstration visit the Special Promotions [webpage](#). If you have questions please contact your EER.

NEW Comfort Ready Home Cold Climate Heat Pump eLearning Course

Comfort Ready Home is offering a new eLearning course, Heat Pump Success in Colder Climates that will help your participating contractors become familiar with this essential technology...[More](#)

BEETS training session dates moved to Jan. 25 & Jan. 26

Due to a conflict, the BEETS training sessions that were originally scheduled on Jan. 18 & 19 will now be moved to the following week. BEET Module 1 training will now be held on Jan. 25 from 9:30 a.m. – noon PST and Module 2 training will be held on Jan. 26 from 10 – 11:30 a.m. If you have already signed up for the training sessions, you received an updated invite and no further action is needed. If you have yet to sign up, please complete the [survey link](#) and an invite will follow. Please contact your EER if you have any questions.

NEW! BEETS System Status Indicator

To keep users informed of known BEETS system issues, you may now reference the 'Current System Status' indicator at the top of the [BEETS landing page](#) on BPA.gov. The BPA EE Systems Team will use this indicator to keep customers informed of issues that are under resolution or have been resolved. If you experience access issues, please check the website and reach out to your EER with any questions.
