Programs/SME: Hazardous Energy Control (HEC), Lockout Tagout (LOTO), Compressed Gas

Jonathan Britton grew up in Mid-Michigan and has been with BPA since 2022. Previous to BPA, Jonathan worked with several Municipalities and Utilities throughout Washington State including the United States Army Corps of Engineers, the City of Kennewick, Tacoma Power, King County Metro, King County Solid Waste, and Lakehaven Water and Sewer. He's lived and worked all over the country to include Michigan, Colorado, New Jersey, Oregon, and Washington. He has an undergraduate degree in Occupational Safety and Health and a Master's in Organizational Leadership with an emphasis in Change Management. Jonathan leads the Compressed Gas and Hazardous Energy Control Lockout Tagout programs for BPA. He holds additional knowledge in the full scope of occupational safety and health programs and has experience in program development, implementation and management. In his free time Jonathan enjoys fishing, travelling, cycling, hiking, visiting national parks, reading, cooking and eating good food. He has three daughters and two dogs, a big Bernese Mountain Dog mix and a recently rescued Blue Pit Bull.

Programs/SME: Transmission Lines, High Voltage Electrical, Arc Flash

Ryan Brady grew up in Spokane, WA and completed his formal training at Boise State prior to joining BPA. He has been with BPA since 1991 and is currently going into his 33rd year with the company. Before his BPA career, Ryan worked alongside his dad in construction, framing houses. Ryan started his career at BPA in the Lineman Apprenticeship Program. His career often relocated him, which lead to receiving his High Voltage Journeyman Lineman card and later serving as a TLM Foreman III. It became evident while serving in various roles that Ryan understood the importance of fostering a safe work environment. In 2015, Ryan moved into the Safety office where he could apply his knowledge and experience to help shape the safety culture. Ryan has a deep knowledge and acumen in Transmission Line responsibilities and Arc Flash protection principles. In Ryan's free time he enjoys spending time with his wife and family, as well as exploring back country roads on his adventure bike.

Programs/SME: High Voltage Electrical, Fall Protection, Load Handling Equipment (LHE), Maintenance, Construction Safety

Ryan Griffin grew up in Molalla, OR and has been with BPA since 2015. Before BPA he was a Corrections Officer with U.S. Immigrations and Customs Enforcement and served over 10 years in the U.S. Army. Ryan started BPA with the Electrician Apprenticeship Program and became a High Voltage Maintenance Electrician. He was a Safety Proctor for the Longview and Olympia Districts for over 4 years and has a wealth of experience in high voltage electrical hazards, fall protection, field construction safety, and load handling equipment. In his free time he enjoys hunting, fishing, camping, building guns, attending music concerts, boating and coaching his kids sports teams.

Programs/SME: Hydropower Generation

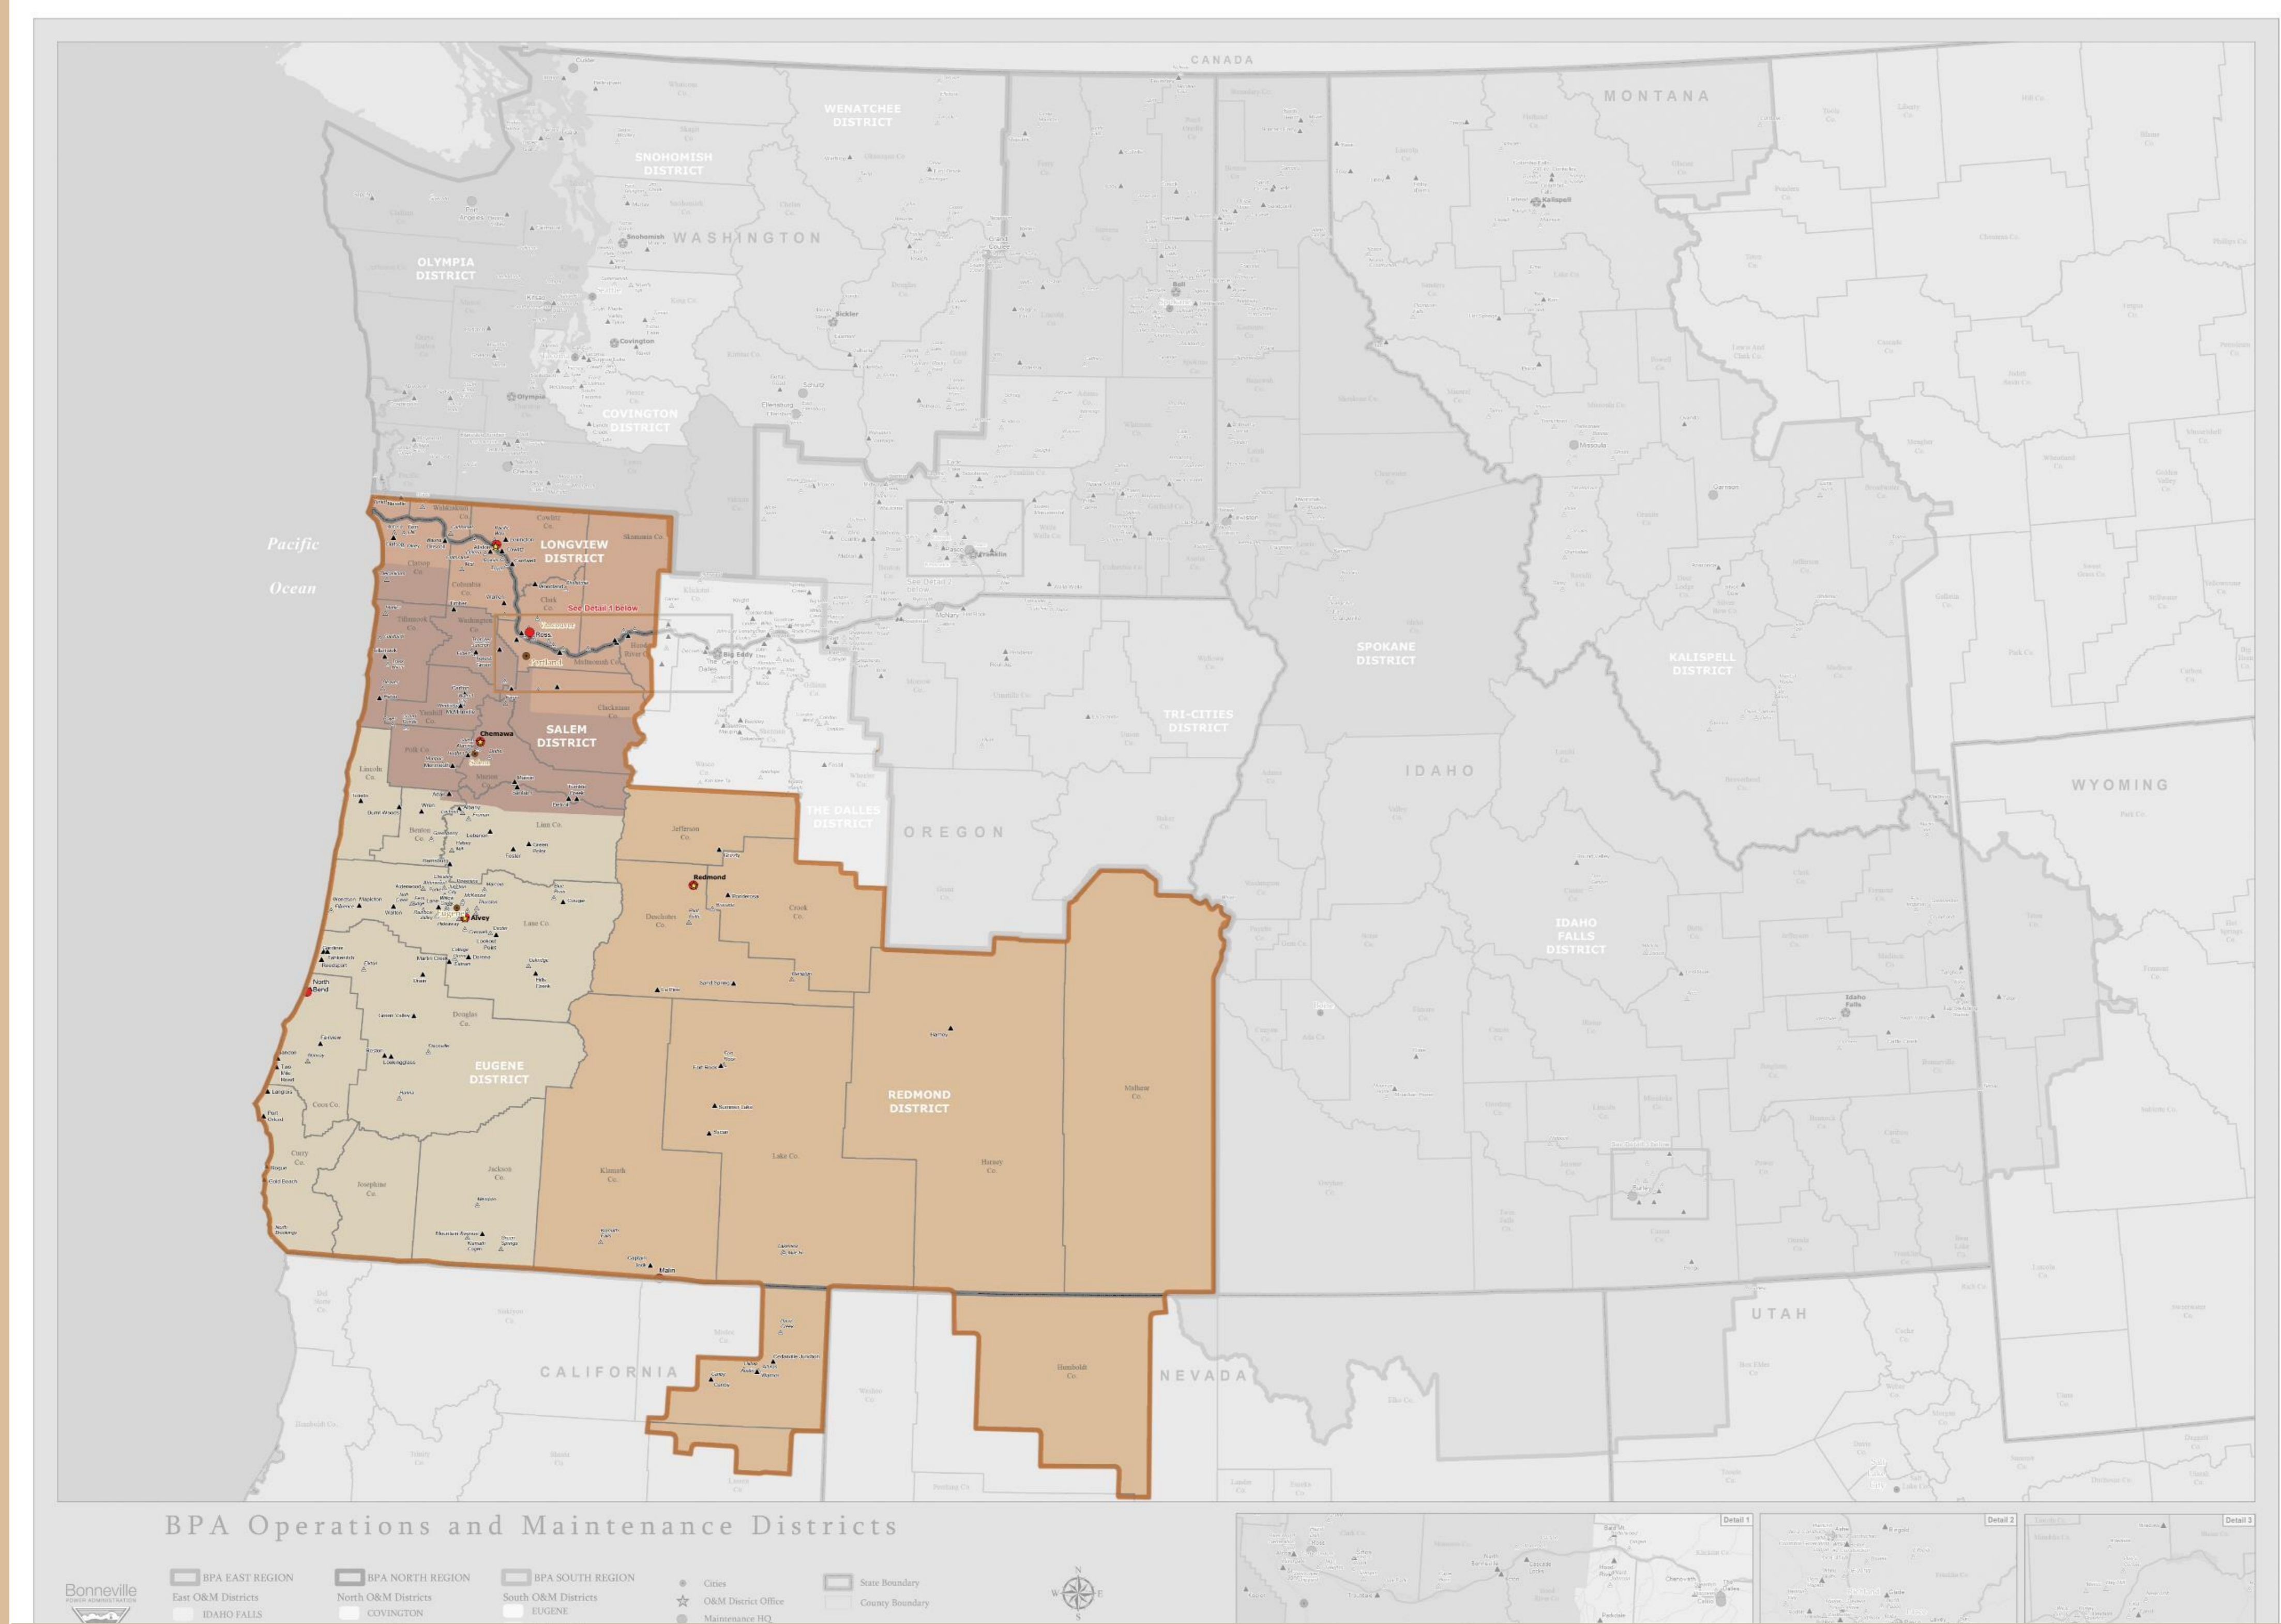

Cookie Rivera grew up in Henderson, NV, and has been with BPA since 2023. Before BPA, she spent 20 years with the Bureau of Reclamation at Hoover Dam that spanned from 1992-2012. She completed an apprenticeship in warehousing and after 8 years joined the Safety Office. Over the next 12 years advancing from Safety Specialist to Safety Manager of Hoover, Parker, and Davis Dams. Hydropower generation offered very unique opportunities to engage with Power Plant Operators, Mechanics, Electricians, Support Staff, and Tourists. She took a break in service for 5 years spending time with her now 27 y.o. daughter and 24 y.o. son. Volunteering with their club sports and raising productive citizens in society. Her daughter is a middle school teacher and her son is in the Army. Returning to federal service as a Safety Specialist with the Corps of Engineers at The Dalles Lock and Dam was an opportunity to experience the Pacific Northwest, living in a small community, and growing personally and professionally. She has learned to drive in rain, snow, and ice. Exploring the beauty of nature, learning to camp, hike, playing in the rivers, and most of all going to the coast is how she spends her spare time. This past year she became a full time sports mom again.
