

Categorical Exclusion Determination

Bonneville Power Administration
Department of Energy

Proposed Action: South Coyote Creek III Property Acquisition and Stewardship Funding

Project No.: 2011-003-00; BPA-012397

Project Manager: Tori Bohlen – EWU-4

Location: Lane County, Oregon

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management

Description of the Proposed Action

Bonneville Power Administration (BPA) is proposing to fund the Oregon Department of Fish and Wildlife to purchase the South Coyote Creek III, which is a 98-acre parcel of land located about 10 miles west of Eugene in Lane County, Oregon. BPA would hold a conservation easement to permanently protect, mitigate, and enhance fish and wildlife and their habitat. BPA would also provide stewardship funds toward land management and maintenance of the property to the Oregon Department of Fish and Wildlife.

This land purchase would specifically satisfy some of BPA's commitments made in the 2010 "Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration."

The property consists of oak-dominated woodland, mixed forest, and riparian habitats, with a portion in agricultural use, currently in hay. The Oregon Department of Fish and Wildlife would develop a land management plan to guide the protection and enhancement of habitat and other resources on the property. The land management plan would be drafted within 18 months of closing. The management plan would be reviewed by BPA for consistency with the conservation easement and the purpose of the acquisition. If BPA proposes to fund any additional activities on the property, further environmental review may be conducted.

Findings: In accordance with Section 1021.410(b) of the Department of Energy's (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, Jul. 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

- 1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
- 2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
- 3) has not been segmented to meet the definition of a categorical exclusion.

Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

Proposed Action: South Coyote Creek III Property Acquisition and Stewardship Funding

Project Site Description

The 98-acre South Coyote Creek III property located in Lane County, Oregon is currently privately-owned and BPA would fund its purchase by the Oregon Department of Fish and Wildlife at closing. The property consists of approximately 46 acres of riparian and wetland habitat, 20 acres of oak woodlands, and 25 acres of mixed conifer forests. The property provides habitat for the following Oregon Conservation Species: white-breasted nuthatch (*Sitta carolinensis*), acorn woodpecker (*Melanerpes formicivorus*), chipping sparrow (*Spizella passerine*), and western gray squirrel (*Sciurus griseus*). Approximately 20 acres of the wetland is in hay production.

Evaluation of Potential Impacts to Environmental Resources

1. Historic and Cultural Resources

Potential for Significance: No

Explanation: There would be no effect due to the conservation easement acquisition which includes transfer of title and the creation of a conservation easement. To the extent that future activities on the property may have an effect, it is expected that the Oregon Department of Fish and Wildlife would comply with all applicable laws and regulations.

2. Geology and Soils

Potential for Significance: No

Explanation: See explanation for #1 above.

3. Plants (including Federal/state special-status species and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

4. Wildlife (including Federal/state special-status species and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

5. Water Bodies, Floodplains, and Fish (including Federal/state special-status species, ESUs, and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

6. Wetlands

Potential for Significance: No

Explanation: See explanation for #1 above.

7. Groundwater and Aquifers

Potential for Significance: No

Explanation: See explanation for #1 above.

8. Land Use and Specially-Designated Areas

Potential for Significance: No

Explanation: See explanation for #1 above.

9. Visual Quality

Potential for Significance: No

Explanation: See explanation for #1 above.

10. Air Quality

Potential for Significance: No

Explanation: See explanation for #1 above.

11. Noise

Potential for Significance: No

Explanation: See explanation for #1 above.

12. Human Health and Safety

Potential for Significance: No

Explanation: See explanation for #1 above.

Evaluation of Other Integral Elements

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.

Explanation: N/A

Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.

Explanation: N/A

Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.

Explanation: N/A

Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation: N/A

Landowner Notification, Involvement, or Coordination

Description: Notification letters would be sent to adjacent landowners and other interested parties at a minimum of 15 days before the closing date (proposed closing date December 31, 2021) of the sale. Advertisements would also be posted in local newspapers, and information would be posted on BPA's public website prior to closing.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts to any environmentally sensitive resource.
