

To Persons Interested in the BPA 2008 Resource Program:

Thank you for your interest in BPA's 2008 Resource Program. We would like to let you know that BPA is extending the Resource Program schedule by several months to let customers, constituents and BPA employees focus their limited time this spring and summer on completing Regional Dialogue contracts and rates.

A longer Resource Program schedule also will better synchronize with development of the Northwest Power and Conservation Council's Sixth Power Plan and will allow the Resource Program to rely more on the Council's public process and analyses. BPA's Resource Program and resource acquisitions are guided by and consistent with the Council's Power Plan.

BPA will prepare a new schedule for the Resource Program that will better coordinate with development of the Council Plan and still meet our customers' needs for information. Please look for the revised schedule to be posted by June at: <http://www.bpa.gov/corporate/finance/RP>. Thank you again for your interest in the BPA Resource Program. We will keep in touch with you as we analyze BPA's future resource needs.

B O N N E V I L L E
POWER ADMINISTRATION

Sincerely,

/s/ Suzanne B. Cooper *April 3, 2008*

Manager, Power Policy and Rates
