

PREDECISIONAL – FOR DISCUSSION PURPOSES ONLY  
SLICE CUSTOMER MEETING HANDOUT

July 11, 2008

**1.1.1 Verification of Slice True-Up**

BPA will conduct a cost verification process that will permit Slice customers and other customers to assess whether BPA has correctly calculated the amount of each expense or revenue credit subject to the Slice True-Up Adjustment, and whether the final Slice True-Up Adjustment contains only those costs permitted to be included in, and does not contain any costs excluded from, the Slice Rate pursuant to the TRM. The cost verification process will not enable customers to question or dispute accounting, policy, management, and other similar issues. The cost verification process will be conducted in accordance with Attachment XX to this TRM.
