

BPA Energy Efficiency Weekly Announcements

March 28, 2024

New

Top reasons to attend Efficiency Exchange 2024

Here is why you shouldn't miss Efficiency Exchange in Coeur d'Alene, May 14-15:

- Get inspired by dynamic keynote speakers Kathryn Schulz and Heather Rosentrater
- Network with energy efficiency professionals from around the region and the U.S.
- Connect with EFX24 sponsors and exhibitors
- There is much more to do! View the full program on the [EFX24 conference page](#)

If you have already registered, it is time to download the web platform and mobile app. On the platform you can complete your attendee profile and add a picture, post a noteworthy article or report on energy efficiency and plan your conference agenda. Download the [Whoava web and mobile platform](#) to get started.

New measure lists and templates available

Updated versions of the UES Measure List, UES Bulk Upload Template, Custom Measure List and C2 Bulk Upload Template are now available and effective April 1, 2024.

- UES Measure List: Version 2.1 is now available. It includes the new multifamily ductless heat pump measures as well as minor fixes to the previous version.
- UES Bulk Upload Template: Version 3.1 is now available and includes additional formatting enhancements and Measure List Version 2.1.
- Custom Measure List: Addition of a new Low Income RefNo.
- C2 Bulk Upload Template: Version 3.1 is now available and includes the new Low Income RefNo.

Feel free to reach out to your EER with any questions or concerns. Please reference the updated versions of these documents on the [BEETS webpage](#).

BPA Low-Income Energy Efficiency Workgroup feedback survey

BPA is excited to resume the Low-Income Energy Efficiency Workgroup and is seeking feedback from utilities, community action agencies, state agencies and other stakeholders

serving low-income communities through a brief survey to help make this a useful forum. This survey will be open through April 11 and is available [here](#).

Events

BPA webinar: Low-Income Energy Efficiency Program Evaluation

Please join BPA's evaluation team April 4 from 10-11 a.m. (PDT) to learn the results of the low-income program process evaluation. Detailed evaluation results, evaluator recommendations and BPA's response, including potential program updates, will be shared. Utilities and stakeholders interested in learning more about BPA's low-income program offerings are encouraged to attend...[More](#)
