

Categorical Exclusion Determination

Bonneville Power Administration
Department of Energy

Proposed Action: Deer Path East Property Acquisition and Stewardship Funding

Project No.: 2011-003-00; BPA-013336

Project Manager: Matt Schwartz – EWM-4

Location: Polk County, Oregon

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management

Description of the Proposed Action: Bonneville Power Administration (BPA) is proposing to assist in funding the Confederated Tribes of Grand Ronde's acquisition of Deer Path East, which is an approximately 58-acre parcel of land located about 2 miles southwest of Dallas in Polk County, Oregon. BPA would hold a conservation easement to permanently protect, mitigate, and enhance fish and wildlife and their habitat. BPA would also provide stewardship funds toward land management and maintenance, monitoring, and enforcement of the conservation easement to the property to the Confederated Tribes of Grand Ronde.

This land purchase would specifically satisfy some of BPA's commitments made in the 2010 "Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration."

The property primarily consists of upland prairie/oak savanna, oak woodland, and mixed deciduous forest habitats. The property also provides connectivity to habitat conserved by other Willamette Wildlife Mitigation Program acquisitions. The Confederated Tribes of Grand Ronde would develop a land management plan to guide the protection and enhancement of habitat and other resources on the property. The land management plan would be drafted within 18 months of closing. The management plan would be reviewed by BPA for consistency with the conservation easement and the purpose of the acquisition. If BPA proposes to fund any additional activities on the property, further environmental review may be conducted.

Findings: In accordance with Section 1021.410(b) of the Department of Energy's (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, Jul. 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

- 1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
- 2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
- 3) has not been segmented to meet the definition of a categorical exclusion.

Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment(s): Environmental Checklist

Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

Proposed Action: Deer Path East Property Acquisition and Stewardship Funding

Project Site Description

The 58-acre Deer Path East property located about 2 miles southwest of Dallas in Polk County, Oregon, is currently privately owned and BPA would fund the purchase by the Confederated Tribes of Grand Ronde at closing. The property currently consists of upland prairie/oak savanna, oak woodland, and mixed deciduous forest habitats and is part of the greater transitional area from the open prairie habitat on the flats of Willamette Valley to the east, and closed canopy conifer forests in the eastern foothills of the Coast Range Mountains to the west. The habitats support several Oregon Conservation Strategy species, including acorn woodpecker (*Melanerpes formicivorus*), white-breasted nuthatch (*Sitta carolinensis*), western bluebird (*Sialia mexicana*), band-tailed pigeon (*Patagioenas fasciata*), western gray squirrel (*Sciurus griseus*), pileated woodpecker (*Dryocopus pileatus*), and bald eagles (*Haliaeetus leucocephalus*). Historically, the property was logged and areas on the east side of the property were grazed or managed as an orchard.

Evaluation of Potential Impacts to Environmental Resources

1. Historic and Cultural Resources

Potential for Significance: No

Explanation: There would be no effect due to the conservation easement acquisition which includes transfer of title and the creation of a conservation easement and a stewardship fund. To the extent that future activities on the property may have an effect, it is expected that the Confederated Tribes of Grand Ronde would comply with all applicable laws and regulations.

2. Geology and Soils

Potential for Significance: No

Explanation: See explanation for #1 above.

3. Plants (including Federal/state special-status species and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

4. Wildlife (including Federal/state special-status species and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

5. Water Bodies, Floodplains, and Fish (including Federal/state special-status species, ESUs, and habitats)

Potential for Significance: No

Explanation: See explanation for #1 above.

6. Wetlands

Potential for Significance: No

Explanation: See explanation for #1 above.

7. Groundwater and Aquifers

Potential for Significance: No

Explanation: See explanation for #1 above.

8. Land Use and Specially-Designated Areas

Potential for Significance: No

Explanation: See explanation for #1 above.

9. Visual Quality

Potential for Significance: No

Explanation: See explanation for #1 above.

10. Air Quality

Potential for Significance: No

Explanation: See explanation for #1 above.

11. Noise

Potential for Significance: No

Explanation: See explanation for #1 above.

12. Human Health and Safety

Potential for Significance: No

Explanation: See explanation for #1 above.

Evaluation of Other Integral Elements

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.

Explanation: N/A

Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.

Explanation: N/A

Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.

Explanation: N/A

Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation: N/A

Landowner Notification, Involvement, or Coordination

Description: Notification letters would be sent to adjacent landowners and other interested parties at a minimum of 15 days before the closing date (proposed closing date June 28, 2024) of the sale. Advertisements would also be posted in local newspapers, and information would be posted on BPA's public website prior to closing.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts to any environmentally sensitive resource.
