Subject: [EXTERNAL] Comments on Contract Sections
Date: Wednesday, October 2, 2024 2:31:29 PM

Snohomish submits the following comments/clarifications on contract sections presented at the Provider of Choice workshop dated September 17-18:

- Sec. 3.1 Load Following Power Purchase Obligation: **Section 10 is not defined.**
- Sec. 3.3.2.3 Resource Adequacy Submittals for Committed Power Purchase Amounts: **Who will sign the Joint Contract Accreditation Form (JCAF) if required under this framework? This implies that BPA will sign the JCAF or at least be party to it.**
- Exhibit A Net Requirements and Resources
 - Sec. 2.1(1)(B) Resource Profile: **In the table, are RSS and Dispatchable mutually exclusive – if RSS yes, then non-Dispatchable?**
 - **Should capacity credit be in this Exhibit A or Exhibit J?**
 - **Please clarify where critical amounts are reflected. Are they reflected in Sec. 8 Tables for Allowable Dedicated Resource Shapes, Sec. 2.1(C) Specified Resource Amounts, or Exhibit J?**

Please let me know if you have questions.
